CORPORATE PROFILE:

Wacker & Associates is a local leader in providing IT Data, Voice, & Network Security solutions from Tier-One, Best-in-Class, equipment manufacturers.

We offer advanced technical services to assist in managing technology deployments from initial design through final testing and turn-up. As a strategic technology partner, our primary objective is to provide innovative business solutions that allow our clients to achieve procurement and operational cost savings while also preparing for future technology requirements.

Our Professional Services are aligned with several major IT Networking, Telephony, & Security solution manufacturers. By eliminating complexity and maximizing accountability in a single-source solution, our clients benefit from engaging Wacker & Associates as their information technology partner for consulting, solution design, procurement, installation, and post-installation support.
